

RECYCLING GUIDE FOR FOOD WASTE & USED OIL

Do not just throw these wastes to the bins!
Go over this guide to dispose it properly.

WHAT CAN BE RECYCLED?

Fruit

Vegetables

Bones

Meat

BUT, REMEMBER:

COOKING OIL
should always be
SEPARATED from
FOOD WASTE.

WHAT TO DO WITH THIS KIND OF WASTE

Decomposed food wastes and recycled organic materials are used to fertilize and improve the soil.

COMPOST

CURRENT COMPOSTING INITIATIVES

Goodbye Basura Movement, Inc. aims to convert biodegradable garbage into organic fertilizers. The garbage shall be sprayed with the organic Garbage BioEnzyme to eliminate the foul odor.

GARBAGE TO GARDEN

Bokashi Pinoy is a social enterprise that focuses on turning food waste into nutrient-rich soil. It facilitates a program called the "30-day Garbage to Garden" challenge.
